

CASSIDY

WRAP TOP | INTERMEDIATE | SIZES 0 - 34 | #4007

HELEN'S CLOSET

PATTERNS

The Cassidy Wrap Top is a fun and versatile pattern that will quickly become a favourite in your wardrobe. Two views are provided and you can easily mix-and-match features to create your perfect wrap top. View A is longer and has short grown-on sleeves and a narrow waist tie. View B is cropped and features long sleeves and a wide waist tie. Both views have a topstitched neck facing and gathers under the bust and at the center back waist. Cassidy can be styled as a dressy or casual top and the waist tie can be tied in a larger bow in the back or wrapped around and tied in a small knot in the front.

Notions

- Thread
- Lightweight fusible interfacing
(see [page 6](#) for requirements)

Fabric Recommendations

Lightweight woven fabrics with no stretch. Linen, cotton (lawn, poplin, batiste, voile, seersucker, shirting, double gauze), Tencel twill, and rayon/viscose challis or poplin will work well. Structured fabric like crisp cotton lawn will have more dramatic volume and drapier fabrics like rayon challis will have more fluid movement.

Two PDF patterns are provided with different size charts. The first is range 0-22 based on a B-cup block. The second is range 12-34 based on a D-cup block. There is an overlap from sizes 12-22 where you can choose which size range you would like to use.

- See [pages 4-5](#) for finished garment measurements
- See page 7 or instructions on how to find your cup size and choose a size
- See page 8 for instructions on how to grade between sizes
- See pages 9-11 for instructions on how to print the PDF pattern

Full bust/chest, and **waist**, and **hem (A)** are measured around the closed top at the full bust/chest, waist and hip (at the bottom of the hem) respectively. **Bicep** is the circumference of the sleeve at the bicep. **Sleeve Length** is the length of the sleeve from the neckline to the hem. **Shoulder to waist** is measured from the high shoulder to the waist seam. **Length** is measured from the neckline at the center back to the hem.

Please allow extra fabric for pattern/print matching with large scale prints.

Interfacing requirements are calculated using 59" (150 cm) wide lightweight fusible interfacing for woven fabrics. If not interfacing tie pieces, less interfacing will be required.

* The wide tie needs to be cut on the cross grain for these sizes on this width of fabric. If you are using a directional print, you may want to piece the tie together out of smaller lengths of fabric so you can cut it on the grainline. In this case, you will need 1 meters/yards extra. See cutting layouts on page 15 for details.
