Choosing a size

It is best to choose a size based on your high bust measurement for this pattern and grade at the waist and hips or adjust for a larger full bust if needed. Please see the original York instructions for pattern adjustments.

Finished bust circumference is not stated because the pinafore is open on the sides. More information about bust sizing in the original instruction booklet. Hip measurement is based on the apron being open at the back as intended.

Bib width is measured from edge to edge across the fullest part of the bust. **Length** is measured from the middle of the shoulder seam to the bottom of the hem band on the front body. **Waist** and **hips** are measured around the body at the waist and hips.

This pattern is designed with enough ease to be pulled on overhead and layered over other garments.
