Fabric Recommendations

Light to medium weight woven fabrics with no stretch. Linen, cotton (lawn, poplin, voile, batiste, seersucker, shirting, chambray, quilting cotton, flannel), wool, hemp, rayon/viscose challis or poplin, and Tencel will work well. Structured fabric will have more dramatic volume and drapier fabrics will have more fluid movement. For beginner sewists, we recommend using lightweight cotton.

Choosing a size

The Cameron has a generous amount of ease and is meant to have a relaxed and casual fit. Refer to the finished garment measurement charts on [pages 4 and 5](#) for more information. We recommend that you **choose a size based on your bust/chest measurement and grade in or out at the waist and hip as needed.** If you are between sizes, you can size up for an oversized look or size down for a slimmer fit.

	18	20	22	24	26	28	30	32	34
Bust/Chest	44	46	48	50	52	54	56	58	60
Waist	36	38	40	42	44	46	48	50	52
Hips	46	48	50	52	54	56	58	60	62

In this example, this person would make a size 20 and grade in at the waist and hip. For more information on grading and other pattern adjustments [please refer to page 7](#).

Choosing a Size

You get to decide how you want your Cameron shirt to fit. It is likely that a few sizes will work for you, so use the size chart, finished measurements charts on the previous pages, and the illustration to the right to decide.

For a slimmer fit, size down. For an oversized look, size up!
