JEANS | INTERMEDIATE | SIZES 0 - 34 | #1004

HELEN'S CLOSET

PATTERNS

The Brooks Jeans are non-stretch jeans with a classic cut. Not too tight and not too loose, these high-waisted jeans offer a comfortable fit that will serve you for years to come. The Brooks legs have a slightly tapered shape that straightens out at the hem. The view A legs are cropped just above the ankle and the view B legs are hemmed at the upper thigh. Both views offer a zipper fly, front and back pockets, and an optional coin pocket. Brooks also features belt loops, a back yoke, and a button to close the waistband. Never sewn a pair of jeans before? You've got this! Our detailed instructions will help you every step of the way.

**Notions**

- Thread
- Topstitching thread
- 17mm jeans button
- 3-7 Rivets (optional)
- Lightweight fusible interfacing & pocketing fabric (see [page 5](#) for details)

• Denim Zipper:

Sizes	Zipper length (at least)
0-6	5.5" (14 cm)
8-14	6.5" (16.5 cm)
16-22	7.5" (19 cm)
24-30	8.5" (21.5 cm)
32-34	9" (23 cm)

**Sizes**

0-34 US

**Difficulty**

Intermediate

**Sewing Skills**

**Learned**

- Sewing with denim
- Sewing a zipper fly
- Topstitching

**Fabric Recommendations**

Medium to heavy weight woven fabric with no stretch. Brooks works best in denim, bull denim, cotton twill, corduroy, and canvas. We recommend a fabric weight of 9 -13 oz (305 - 406 GSM).

inches

	0	2	4	6	8	10	12	14	16

This pattern has been drafted for a 5'6" (168 cm) tall person

### Choosing a size

The Brooks jeans have an average amount of ease and are meant to fit close to the body without being too tight. We recommend that you **use the size chart and the finished garment measurements on the next page to choose your size.** You can grade between sizes and make other adjustments to get your desired fit.

	16	18	20	22	24	26	28	30
<b>Waist</b>	34	36	38	40	42	44	46	48
<b>Hips</b>	44	46	48	50	52	54	56	58

*In this example, this person would make a size 16 and grade out at the hips to a size 18.*

### Making a muslin/toile

Jeans are one of the more challenging designs to fit, especially with non-stretch denim. We recommend making a muslin/toile (a test version) using a sturdy cotton muslin or denim. This will allow you to address and improve any areas that don't fit perfectly and tailor the Brooks Jeans pattern to you!

Inseam measurement is 28.5" (72.5 cm) for view A and 5" (11.5 cm) for view B.

**Waist** and **Hip** are measured around the garment at the waist and hip level. **Thigh** is the circumference of the leg measured 2" (5 cm) below the crotch seam. **Front Rise** and **Back Rise** are the height of the garment from the inseam to the center front/back at the waist (including the waistband). **Inseam** is the length of the inseam. **Calf** is the circumference of the leg at the calf level.

Please allow extra fabric for napped or directional prints.

**Both views require 18" x 23" (46 cm x 59 cm) of pocketing** or scrap lightweight woven fabric. Quilting cotton or other stable woven fabric works well.

Choose a lightweight woven fusible interfacing.
